Technical Know-How

www.prebena.com

- tool-free adjustment of the movable die for different carton strengths
- extended throat depth of 220 mm

Safety device - Triggering is only possible if the die and cardboard pushed the safety device upwards

Movable die - During the triggering process the die is pressing the cardboard against the safety device.

Mark protection - prevents damage to the cardboard

Special die-head - guarantees a controlled bending of the staples

The low weight and his ergonomic handle guarantees a fatigue-free work
